Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-4, drawn to a bean product, classified in class 426, subclass 629.
- II. Claim 5, drawn to a process of producing a bean product, classified in class 426, subclass 508.

The inventions are distinct, each from the other because of the following reasons:

Inventions II and I are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case, the product may be made by a process wherein the bean is submerged in or sprayed with a pre-prepared solution containing a flavor component or subjected to higher pressure atmosphere containing said flavoring while subsequently or at the same time steam treating or microwave heating same.
